Canadus Power Systems
9347 Ravenna Road, Unit A
Twinsburg, Ohio 44087
www.canadus.com

Core Competencies

The Canadus Power Systems Battery Reconditioner / Desulfator is a patented electronic device that extends the life and improves the performance in all lead acid batteries, including AGM.

- The Battery Reconditioner optimizes the designed battery chemistry by applying microsecond voltage pulses during charging needed to break own the naturally forming hardened lead sulfate crystals
- Reduces no-start incidents
- Improves alternator performance
- Extends battery life and service life of the electrical equipment

CANADUS Battery Desulfator Model HD-1224

Past Performance

The Battery Reconditioner is OEM approved for Commercial Vehicle installation since 2015 and now standard or optional on the following brands:

- Mack Trucks USA
- Volvo Trucks North America, South America, Europe
- Renault Trucks, Europe
- Pierce Emergency Vehicles (Oshkosh USA)
- Paccar USA

Pertinent Agreements: 4 Year Global Purchasing Contract- Volvo Group Trucking OEM US/Europe/South America

Past Agreements: 4 Year Global Purchasing Contract - Volvo Group Trucking OEM Europe/South America (2015 – 2018)

Differentiators

The patented Canadus Battery Reconditioner is small in size (45mm x 48mm x 17mm), light weight (60 grams) and embodies 15-years of research and testing

- For use with both 12v or 24v vehicle electric systems
- A single unit can be used with up to eight 12v Group 31 batteries in parallel configuration
- Made in USA (Ohio)
- ISO 9001 and 14001 certified
- OEM Test Standards

Company Data

Canadus Power Systems is a leader of lead acid battery technology since 2001. Canadus is involved in many design features to extend battery life and communicate battery health in 12, 24, 36 and 48-volt systems. Canadus manufactures its products in the USA.

Specific Pertinent Codes and Data:

DUNS : 828801022

CAGE: 1X4W3

NAICS: 811490, 811118, 334419, 334515, 336212, 335312, 335912

Accept Credit Cards/ Purchase Cards: YES
